BIKINI-LINE BANDITS

If you know the pain and inconvenience of constantly ingrowing hairs, you probably have less-than-pleasant associations with the words "bikini season." "When hair is trimmed close to the surface, it often develops a sharp or barbed surface, making it prone to curling inward underneath the epidermis, as opposed to out of the skin," says Dr. Shannon Humphrey, clinical assistant professor in the Department of Dermatology and Skin Science at the University of British Columbia, adding that women with curly, thick or dark hair are more prone. "When it curls in, it creates a foreign-body response—redness, bumps, pus, tenderness, etc." Short of booking in for regular vajacials (which are definitely worth a try if you're ingrown-plagued), here's how to keep them at bay.

Speed up the healing
If you suffer from ingrown hairs around the bikini line,
