Kiss to those sticky, white plastic pore strips for novelty factor, but when it comes to rinsing blackheads for good, exfoliation is key. Look for products packed with fruit extracts to slough away dirt and grime, like Perfectione Pre-Camp Series Exfoliating Pure Radiance, which is great for anyone experiencing the first signs of exfoliation. If pores have firmly set in, then Clarisonic Premium Foaming Pure Pack Duo works best, exfoliating dead skin cells and clearing to improve skin's warming hydrated powder before the soothing sensation of the second step, a mask enriched with glass water to close pores.

Protégé Elite utilizes radio frequency technology to gently warm the skin to stimulate collagen production over time. This specially calibrated device heats the skin to about 42 degrees Celsius so as to ensure only collagen is targeted without damaging other tissues to tighten sagging skin and improve skin texture.
